

The City of Moose Lake adopted the State Building Codes in 1968. The following are excerpts of Minnesota Rules chapter 1300 for your Information. If repairs are DUE TO THE FLOOD OF JUNE 2012, Building Permit Fees are waived but State Surcharge fees are still due.

1300.0120 PERMITS.

Subpart 1. **Required.** An owner or authorized agent who intends to construct, enlarge, alter, repair, move, demolish, or change the occupancy of a building or structure, or to erect, install, enlarge, alter, repair, remove, convert, or replace any gas, mechanical, electrical, plumbing system, or other equipment, the installation of which is regulated by the code; or cause any such work to be done, shall first make application to the building official and obtain the required permit.

Subp. 4. Work exempt from permit.

Exemptions from permit requirements of the code do not authorize work to be done in any manner in violation of the code or any other laws or ordinances of this jurisdiction. Permits shall not be required for the following:

A. Building:

- (1) one-story detached accessory structures, used as tool and storage sheds, playhouses, and similar uses, provided the floor area does not exceed 120 square feet (11.15 m²);
- (2) fences not over six feet (1,829 mm) high;
- (3) oil derricks;
- (4) retaining walls that are not over four feet (1,219 mm) in height measured from the bottom of the footing to the top of the wall, unless supporting a surcharge or impounding Class I, II, or III-A liquids;
- (5) water tanks supported directly upon grade if the capacity does not exceed 5,000 gallons (18,927 L) and the ratio of

height to diameter or width does not exceed 2 to 1;

- (6) sidewalks and driveways that are not part of an accessible route;
- (7) decks and platforms not more than 30 inches (762 mm) above adjacent grade and not attached to a structure with frost footings and which is not part of an accessible route;
- (8) painting, papering, tiling, carpeting, cabinets, countertops, and similar finish work;
- (9) temporary motion picture, television, and theater stage sets and scenery;
- (10) prefabricated swimming pools installed entirely above ground accessory to dwelling units constructed to the provisions of the International Residential Code or R 3 occupancies constructed to the provisions of the International Building Code, which do not exceed both 5,000 gallons in capacity (18,925L) and a 24 inch (610 mm) depth;
- (11) window awnings supported by an exterior wall that do not project more than 54 inches (1,372 mm) from the exterior wall and do not require additional support, when constructed under the International Residential Code or Group R 3 and Group U occupancies constructed to the provisions of the International Building Code;
- (12) movable cases, counters, and partitions not over five feet, nine inches (1,753 mm) in height;
- (13) agricultural buildings as defined in Minnesota Statutes, section 16B.60, subdivision 5; and
- (14) swings and other playground

equipment.

Unless otherwise exempted, plumbing, electrical, and mechanical permits are required for subitems (1) to (14).

B. Gas:

- (1) portable heating, cooking, or clothes drying appliances;
- (2) replacement of any minor part that does not alter approval of equipment or make the equipment unsafe; and
- (3) portable fuel cell appliances that are not connected to a fixed piping system and are interconnected to a power grid.

C. Mechanical:

- (1) portable heating appliances;
- (2) portable ventilation appliances and equipment;
- (3) portable cooling units;
- (4) steam, hot, or chilled water piping within any heating or cooling equipment regulated by this code;
- (5) replacement of any part that does not alter approval of equipment or make the equipment unsafe;
- (6) portable evaporative coolers;
- (7) self contained refrigeration systems containing ten pounds (4.5 kg) or less of refrigerant or that are actuated by motors of one horsepower (0.75 kW) or less; and
- (8) portable fuel cell appliances that are not connected to a fixed piping system and are not interconnected to a power grid.

D. Plumbing: See chapter 4715 for plumbing work that is exempt from a permit.

E. Electrical: an electrical permit is not required if work is inspected by the State Board of Electricity or is exempt from inspection under Minnesota Statutes, section 326.244. Obtaining a permit from the Board of Electricity does not exempt the work from other Minnesota State Building Code

requirements relating to electrical equipment, its location, or its performance.

Subp. 5. **Emergency repairs.** If equipment replacements and repairs must be performed in an emergency situation, the permit application shall be submitted to the building official within the next working business day.

Subp. 6. **Repairs.** Application or notice to the building official is not required for ordinary repairs to structures. The repairs shall not include the cutting away of any wall, partition, or portion of a wall or partition, the removal or cutting of any structural beam or load bearing support, or the removal or change of any required means of egress, or rearrangement of parts of a structure affecting the egress requirements; nor shall ordinary repairs include addition to, alteration of, replacement, or relocation of any standpipe, water supply, sewer, drainage, drain leader, gas, soil, waste, vent or similar piping, electric wiring, or mechanical or other work affecting public health or general safety.

Subp. 7. **Application for permit.** To obtain a permit, the applicant shall file an application in writing on a form furnished by the Department of Building Safety for that purpose. The application shall:

- A. identify and describe the work to be covered by the permit for which application is made;
- B. describe the land on which the proposed work is to be done by legal description, street address, or similar description that will readily identify and definitely locate the proposed building or work;
- C. indicate the use and occupancy for which the proposed work is intended;
- D. indicate the type of construction;
- E. be accompanied by construction

documents and other information as required by the code;

F. state the valuation of the proposed work;

G. be signed by the applicant, or the applicant's authorized agent; and

H. give other data and information required by the building official.

Subp. 8. Action on application. The building official shall examine or cause to be examined applications for permits and amendments within a reasonable time after filing. If the application or the construction documents do not conform to the requirements of pertinent laws, the building official shall reject the application and notify the applicant of the reasons. The building official shall document the reasons for rejecting the application. The applicant may request written documentation of the rejection and the reasons for the rejection. When the building official is satisfied that the proposed work conforms to the requirements of the code and applicable laws and ordinances, the building official shall issue a permit.

Subp. 9. Time limitation of application. An application for a permit for any proposed work shall be considered abandoned 180 days after the date of filing, unless the application has been pursued in good faith or a permit has been issued; except that the building official is authorized to grant one or more extensions of time for additional periods not exceeding 180 days each. The extension shall be requested in writing and justifiable cause demonstrated.

Subp. 10. Validity of permit. The issuance or granting of a permit or approval of plans, specifications, and computations, shall not be construed to be a permit for any violation of the code or of any other ordinance of the jurisdiction. Permits

presuming to give authority to violate or cancel the provisions of the code or other ordinances of the jurisdiction are not valid. The issuance of a permit based on construction documents and other data shall not prevent the building official from requiring the correction of errors in the construction documents and other data. The building official may also prevent occupancy or use of a structure that violates the code or any other ordinance of this jurisdiction.

Subp. 11. Expiration. Every permit issued shall become invalid unless the work authorized by the permit is commenced within 180 days after its issuance, or if the work authorized by the permit is suspended or abandoned for a period of 180 days after the time the work is commenced. The building official may grant, in writing, one or more extensions of time, for periods not more than 180 days each. The extension shall be requested in writing and justifiable cause demonstrated.

Subp. 12. Suspension or revocation. The building official may suspend or revoke a permit issued under the code if the permit is issued in error; on the basis of incorrect, inaccurate, or incomplete information; or in violation of any ordinance or regulation or the code.

Subp. 13. Placement of permit. The building permit or a copy shall be kept on the site of the work until the completion of the project.

Subp. 14. Responsibility. Every person who performs work for the installation or repair of building, structure, electrical, gas, mechanical, or plumbing systems, for which the code is applicable, shall comply with the code.

Subp. 8. Work commencing before permit issuance. If work for which a permit is required by the code has been commenced without first obtaining a permit, a special investigation shall be made before a permit may be issued for the work. An investigation fee established by the municipality shall be collected and is in addition to the required permit fees, but it may not exceed the permit fee.
